

Island Supply Ports Information - MARPOL V waste disposal

All ships calling the port are obliged to dispose their waste (Directive (EU) 2019/883).

The disposal of the following quantities of waste is included in the payment of port dues (no special fee):

Waste description	Liter	
	Ships up to 3,500 GT	Ships over 3,500 GT
Plastic	240	3 x 240
Food waste	120	240
Household waste - paper	120	240
Household waste - glass	120	240
Household waste – residual waste	240	2 x 240
Operational waste – cleaning rags	120	120

The necessary containers will be provided unsolicited. Their use does not result in additional costs (no special fee).

You can order the disposal of other types and quantities of waste via your agent. The additional quantities will be invoiced separately (see current port tariff at www.nports.de/en).

Procedure:

1. ship informs agent about the waste quantities (including quantities and additional quantities if necessary)
2. agent agrees delivery time of the containers with the disposal company
3. disposal company provides the required containers
4. ship disposes the waste in the containers provided
5. disposal company prepares the delivery certificate and sends it electronically to the agent
6. NPorts invoices the disposal fees

Ships that are not serviced by an agency can contact the waste disposal company directly or contact the Port Office.
